Chris Harrison : Head Over Heel: Seduced by Southern Italy before purchasing it in order to gauge whether or not it would be worth my time, and all praised Head Over Heel: Seduced by Southern Italy:

4 of 4 people found the following review helpful. An Interesting Story. By Cal Guy This ebook was an enjoyable read and I look forward to reading the second part which I understand is in the works. It's certainly a different portrayal of

Italy compared to other authors who constantly talk about "la dolce vita" and everything sweet that Italy has to offer. In this book Chris Harrison is at times brutally blunt about the differences between Australia and Italy. It's for this reason that I only give four stars instead of five. At times I found it condescending that the author feels that Italy is not up to par. It's just that they do things differently compared to other countries like his. It's clear to see that the author will not make Italy his permanent home because it's just too different than the lifestyle that he was brought up in. I don't fault him for this, I have visited Italy enough times too that I would never move there for more than several years either. Having said this, I do recommend reading the book and I'll be buying the next one in his saga as I am interested to read what his final decision was that made him leave. 0 of 0 people found the following review helpful. Head Over Heels Over This Book By K. Buresh I enjoyed this book immensely! I have this love affair with Italy and all Italian. I doubt I'll ever get to visit in person so I look to the internet and books such as this one when I need an Italian "fix". I've always been told by other travelers that you need to go off the beaten track when visiting Italy to really experience the country and culture. Chris Harrison more than foots the bill! It's light, easy reading with a touch of romance- for the country and his love Daniela, lol. I enjoyed reading about the areas he visited/lived in and I would Google them to see where and what he was talking about. It was interesting to see the comparisons between what I visualized in my mind while reading and what they actually looked like. I also enjoyed reading about the history of certain places and things he mentioned in the book. I was sorry to reach the end of the book. I wanted to experience more through Mr. Harrison. Definitely recommend to anyone interested in Italian culture! 0 of 0 people found the following review helpful. Fun Read By Jeane Rhodes This is a fun read. It's a very honest look at life, with all the challenges as well as the rewards, for an Australian expat living in southern Italy (with a few months diversion to Milan). The underlying love story that is the reason for the relocation to Italy is beautifully woven in among the stories of other locals and a very touching chapter on the adoption of a stray dog. I would recommend it especially for anyone planning to travel to this part of Italy.

After falling in love with la bella Daniela, Chris Harrison uproots his life to follow her to her small hometown on the coast of Puglia and live la dolce vita. Can their relationship possibly survive the eccentric cast of characters they encounter or will the sweet life turn sour? This is an enchanting tale of amore, Italian style.
