This is a great book for people living in the city who want a short, inexpensive, relaxing vacation away from NYC. I love the fact that you don't need a car for all of these locations!! Some of the locations hotels are outdated so you have to call in advance because some of them are closed. However, the locations are tranquil and you can look up great hotels or bed and breakfasts in that area online now even using TripAdvisor. I read this book and actually bought it as a gift for an overworked administrative assistant in my office who did not have the time or the money to go on vacation. She was able to go on one of these trips and have a peaceful weekend and come back to work refreshed. She said it was completely worth it not to hear the kids above her in her apartment playing romper room for three days!!1 of 2 people found the following review helpful. Good but somewhat outdatedBy O. C.Love the idea of the book, although some info is outdated. Like lots of things, beauty is in the eye of the beholder. Great because of its original ways to travel and think about travel. Instead of just renting a video or fighting the Saturday night crowds at Manhattan's movie theaters and eateries, you can actually go to another place (one hour away) visit a museum and some galleries, wander into charming boutiques and collectable shops, dine under candlelight and spend the night in a room overlooking a forest, with beds turned down and a chocolate kiss on your pillow, awake to an elegant brunch... and return to the city refreshed and rejuvenated, ready to begin your work week. And you don't have to have a car, big bucks or a significant other to do it! What a revelation ... this book tells you how.

Even the most devoted Gothamite needs to get away from it all sometimes. But most New York natives think they need a car to do it. Heavenly Weekends reveals fifty-two fabulous nearby escapes--one for every weekend of the year--all accessible by public transportation! Completely revised and updated for this all-new second edition, Heavenly Weekends features a unique organization by distance from New York City, allowing travelers to pick trips based on how far they want to travel, from One Hour or Less to Three to Four Hours. With a welcome range of escapes to suit every interest and pocketbook, from a meditative weekend of yoga (only a bus ride away) to a day of antiquing (one hour on the train), Heavenly Weekends is a delightful addition to every New Yorker's shelf.
