This guide has a TON of ideas for weddings in the CA Bay Area/wine country, but VERY slim on any other places in Northern California. Great if you are a SF Bride, but bad if you are above Napa.

My wife and I used this book planning our wedding - and in the first few pages of the book there is a pull quote that sums our experience up completely, something to the effect of "Using this guide will cut your wedding planning by 90%". It is extremely time consuming to do web searches to find information about venues, caterers, etc - it's also tedious to try to sort through "featured vendor listings" sites vs. real reviews. The beauty of this book is that every pre vendor is pre-screened for quality. There are literally hundreds of detailed pages on local venues and local vendors, outlining estimated costs, capacity, history, and everything else you'd need to start fine tuning wedding planning. In sum, we are very happy that it was referred to us, and were happy to recommend it here.

Known to brides and event planners as The Location Bible, Here Comes the Guide: Northern California is the most comprehensive reference of its kind available. It features more than 400 fabulous event sites, including private estates, four-star resorts, historic gardens, yachts, museums, wineries, hotels, bed-and-breakfasts, and other venues from Big Sur and the Wine Country to San Francisco and Tahoe. Engaging descriptions give readers a clear picture of each location, while details about pricing, policies, services, restrictions, and amenities streamline the selection process. A special index lists locations by type and characteristic, providing key information at a glance. Also included are over 125 prescreened vendors, such as photographers, caterers, florists, and bakers, along with tips on how to hire and work with event professionals. This all-in-one resource saves time, money, and frustration, making it easy for anyone to plan a wedding, special event, or business function. This newly updated edition features 90 new facilities and services.
