By PetterI feel fooled by on this one. On the look inside pages that was able to view on the web store you got the impression that this was a book with lots of color pictures. When i got it home i found out that some 20-30 pages at the beginning of the book had color pictures, and then the rest of the book was in a cheap paper quality and the pictures in black and white. This information should have been put clearly visible on the web page.

By R. YurickI have the 7th edition. It has a lot of useful information, and is only about 500 pages. It covers a pretty good area--SF, Yosemite, Napa/Sonoma wine country, much of the Northern Central coasts.

All-new, four-color section features photo surveys of wineries, redwood groves, hidden beaches, ethnic neighborhoods, Gold Rush towns, and more
Reviews a wide range of unique accommodations, from hip, boutique hotels to one-of-a-kind bed-and-breakfasts
Newly added Hidden Highlight maps point the way to lesser-known gems in San Francisco, the Wine Country, along the coast, and all across Northern California
Surveys the area's diverse dining options, including California cuisine, fresh seafood, and ethnic options like Chinese, Japanese, and Italian
The ultimate guide to the region's spectacular beauty with detailed information on hiking, camping, surfing, skiing, and river rafting"
