Ray Riegert : Hidden Southern California before purchasing it in order to gage whether or not it would be worth my time, and all praised Hidden Southern California:

2 of 2 people found the following review helpful. Really usefulBy R. G. W. BrownIf now a little dated - this is a really useful overview of lots of places to visit in Southern California, many of them well-away from the hordes of tourists who come here. As one who lives here, I use this book a lot, and value it highly.0 of 3 people found the following

By Ronald Petersen I got the books to learn about my SoCal. I have just started to read the book and examine the opportunities. 17 of 18 people found the following review helpful. Excellent Guide to Southern California
By M. Wright This guide gave me all of the information I needed to have a wonderful vacation. The information was candid, and thoughtfully presented. There were many tidbits of information/ sights I would never had thought to see if it wasn't for this book. My vacation consisted of renting a car at LAX touring along the coast (stopping at places recommended in the guide) Heading down to San Diego and then returning to LAX by traveling inland and seeing Temecula etc. It was a fun filled 10 days and all I used was this guide. If you just want the basic tourist jargon, buy a Frommers guide, not a hidden one... :-)

The ultimate guide for enjoying the Southern California sunshine, with details on over 100 beaches and parks, including more than 250 hiking trails and over 100 surfing spots. In-depth coverage of the area's two big cities, Los Angeles and San Diego, include its many small jewels such as Santa Barbara, La Jolla, Palm Springs and Santa Catalina Island. Many distinctive lodging options are reviewed including cottages on the beach, spa retreats in the desert, alpine-style lodges in the mountains and boutique hotels in fashionable locales. "Hidden Southern California" offers insider advice on seeing Hollywood, seven Spanish missions, eight different theme parks and many other popular attractions while avoiding the tourist traps along the way"
