is a portal to Colorado trails whether you're a visitor to the state or a seasoned Colorado hiker. It offers beauty and a breadth and depth of knowledge unusual in a hiking guide. The photography captures the shades and hues of our stunning landscape. For the serious hiker, each trail is described with details of the trails (distance, elevation, difficulty, time, etc), landmarks, shaded topographic maps and GPS coordinates. To lure in the more casual hiker, there's history of the area and the trail, nearby restaurants and accommodations, and sidebars with tips, stories and geology. All are welcome to the Colorado trails in this beautiful and comprehensive guidebook. 0 of 0 people found the following review helpful. Five Stars By Howard Easy to read guide accurately describes hikes. Very useful for planning vacations. 1 of 1 people found the following review helpful. I love this book By Customer I love this book, the photos are so beautiful it makes me want to be there. Directions and information on the trail is very informative.

From mountainous trails to scenic paths, *Hiking Colorado, Fourth Edition*, provides readers with a comprehensive guide to Colorado's many hikes. With updated maps and photography, reviser Sandy Heise leads readers through Colorado's many exciting outdoor adventures. Using GPS coordinates and detailed maps of each route, *Hiking Colorado* is the most complete and accessible hiking guide available.

About the Author Sandy Heise migrated to Colorado over 35 years ago to attend the University of Colorado at Boulder. She learned to rock climb in a Colorado Mountain Club (CMC) Basic Mountaineering School course and fell deeply in love with anything related to mountains. She eventually became a Senior Instructor for the same course and also lead day trips into the mountains near Boulder. She has also assisted with the CMC's Advanced Mountaineering School, teaching ice climbing and winter outdoor skills. Sandy has climbed 51 of Colorado's 54 official fourteeners (peaks over 14,000 feet high) and backpacked several sections of the Colorado Trail. She has explored mountain ranges around the world. At least once a week, you can find Sandy on a trail, mountain summit, rock face, frozen waterfall, or a pair of skis somewhere in the Rocky Mountains of Colorado.
