Guide to the Area's Greatest Hiking Adventures (Regional Hiking Series):

1 of 1 people found the following review helpful. Good guidebook for this remote part of Colorado. By Don B The content of this book strikes the right balance between conciseness and necessary detail. The author writes from personal experience and that works well in a guidebook. The most biggest negative of this guide is that it doesn't work well as an ebook since the maps are mostly useless in an ebook. This is not the fault of the author but something to keep in mind. 2 of 2 people found the following review helpful. Five Stars By Daniel Ethan Rieber Great book. wish it told more about trail side campsites. 0 of 0 people found the following review helpful. Basic By Kindle Customer Basic trail information. Thought there would be more off the official route information. Expected more on backpacking camping locations.

Fifty-nine comprehensive trail descriptions for Colorado's Weminuche and South San Juan Wilderness areas.
