before purchasing it in order to gage whether or not it would be worth my time, and all praised Hiking Guide to Mount Washington and the Presidential Range:

0 of 0 people found the following review helpful. Hiking Guide to Mount Washington and the Presidential RangeBy Emily CamposExcellent detail of each trail which was very helpful in choosing the most appropriate ones based on skill level and goals. However the map that was supposed to come with the book was missing. I had to buy a map separately when I arrived at the mountain.
