GRETA RESOURCE BOOK.By MAXRGREAT BOOKS HIGHLY RECOMMENDED.JUST WHAT WE NEEDED TO GET TO KNOW NEW MEXICO.MAXR5 of 6 people found the following review helpful. Limited Information If Focusing on Specific Area of NMBy LAFOne of the less helpful hiking guides I've purchased. The better guides I've seen have a summary chart of hikes, including difficulty level, etc. In fairness, this was a state-wide book while I was focusing on the Taos area. However, the map of Wheeler Peak hike seemed dated in that it does not show a connecting trail to Williams Lake. Fortunately, I got the Trails Illustrated map of this area and was able to get a much clearer picture of interesting trails than is provided by this book.

Ninety-one hikes from the La Luz Trail to the San Mateo and Peloncillo Mountains.

From the Back CoverRevised and Updated. Author and photographer Laurence Parent updates this invaluable sourcebook with 21 new hikes, some popular and others unknown. Also, many new photos depict New Mexico's diverse landscape.
