book but unfortunately some of the information is incorrect. The GPS coordinates given on more than one hike are way off. The one given for St Clair Mountain (N35 55.169' / W111 43.478'), which is located east of Cave Creek, just north of Phoenix, lands you somewhere east of the Grand Canyon. Fortunately, there are written directions as well, which I assume (or rather hope) are correct. I have the Kindle version, by the way. 0 of 0 people found the following review helpful. By Gregory L Chilcote What a treasure trove of future adventures I found in this well written book. I will be doing much exploring this winter (when the temps drop). The book came rapidly and arrived much faster than I expected. Great job!
