**Suzanne Swedo : Hiking Yosemite National Park: A Guide to 61 of the Park's Greatest Hiking Adventures (Regional Hiking Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hiking Yosemite National Park: A Guide to 61 of the Park's Greatest Hiking Adventures (Regional Hiking Series):

0 of 0 people found the following review helpful. great review of the trails and featuresBy Glen Grgreat review of the trails and features. I stayed in the valley and accessed trails from the shuttle system. Next time I go, I'll have a car and be able to explore the bulk of the trails that aren't accessible from the valley shuttle system.3 of 3 people found the following review helpful. As Good As Any...Better Than MostBy Sierra FanI've hiked a lot of these trails over the past 20 years and hope to hike all 61 at some point. This book is as good as any...and better than most when describing the trails, how to get to them, what to watch out for (good and bad), etc. Good maps and some great photos of the trails, too. Glad I picked this book. The author sounds like someone you could enjoy a good Yosemite hike with and learn a lot from at the same time.3 of 4 people found the following review helpful. Good maps and descriptionsBy William HerrToo old to hike in Yosemite anymore, but used this to bring back many fond memories of hikes my wife and I took years ago. Good maps and descriptions. Thanks.
