**Olga Shugurova, Mila Shugurova : Histories of Times: Seven Fires of Orion.** before purchasing it in order to gage whether or not it would be worth my time, and all praised Histories of Times: Seven Fires of Orion.:

This is a book of poetry about the real-life dream-world of the Archipelago Solovki, the Russian White Sea, that is situated in between the visible and invisible cultural-spiritual geographies of the past and present. In these geographic

encounters with the mysterious places, the author poetically narrates the beautiful local legends and personal stories about her encounters with these places and their inhabitants. The poetry emerged from the author's real-life travels to Solovki. The readers are invited to visit and contemplate the wonders of these encounters with the Great Nature that is living amidst the Archipelago of the White Sea, where the Soviet Gulags were located and where the spiritual miracles took place (1900s-2000s). Unavailable for purchase.
