Meriwether Lewis, William Clark : History Of The Expedition Under The Command Of Captains Lewis Clark: To The Sources Of The Missouri, Thence Across The Rocky Mountains And Down The ... Years 1804-5-6, By Order Of The Government before purchasing it in order to gauge whether or not it would be worth my time, and all praised History Of The Expedition Under The Command Of Captains Lewis Clark: To The Sources Of The Missouri, Thence Across The Rocky Mountains And Down The ... Years 1804-5-6, By Order Of The Government:

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been

housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

About the Author William H. Clark, II is a registered professional engineer with wide experience in electrical, lighting, mechanical, and structural projects. An expert on energy-efficient materials and designs, he is the author of *Retrofitting for Energy Conservation*. He is a member of the Technical Calculations Committee for the Illuminating Engineering Society, and a member of IEEE, ASHRAE, and ASME, as well as a member of the board of directors of *Engineered Systems* magazine. Mr. Clark has also written articles for numerous trade and technical journals, as well as several computer programs to model energy conservation strategies.
