Nick Pobursky : Hollow World before purchasing it in order to gage whether or not it would be worth my time, and all praised Hollow World:

Die Hard in Disney World! Detective Charlie Walker's worst nightmare comes true when his family is brutally kidnapped while on vacation at Walt Disney World. In order to rescue his wife and daughters, he must enter a dark, dangerous world of vicious trials and sadistic mind games concocted by a brilliant, but psychotic nemesis. All Charlie Walker wanted was to get away from the stress of life as Detroit's most renowned detective, so a family trip to his favorite place, Walt Disney World, couldn't come soon enough. But an unknown nemesis has other plans for Charlie's vacation at The Most Magical Place on Earth... When the detective's wife and children are kidnapped in a sophisticated and brazen attack, a brilliant psychopath sets into motion a cunning game of cat and mouse, and Charlie has no choice but to play along, or risk losing the people dearest to him. Using Walt Disney World as his chessboard, Charlie's tormentor gleefully stages a nail-biting series of dark and sadistic challenges designed not only to test Walker's intelligence, but also his sanity. And just when it seems like all hope is lost, help comes from the last person on Earth he'd expect. Hollow World is part Sherlock Holmes, part Die Hard, and part Taken - high-stakes, heart-pounding action set smack-dab in the middle of The House of the Mouse. As with the best Hollywood blockbusters,

Pobursky keeps you glued to your seat, waiting to see how this deadly war of minds will play out.
