Homes and Libraries of the Presidents identifies, describes, and provides sources of additional information to almost one hundred homes, libraries, and museums that commemorate one or more of the presidents of the United States from George Washington to George W. Bush. Each president's life and home is put into personal and historical context. The book has three sections. Section one provides an overview of the historical significance of presidential homes and museums, discusses restoration and preservation efforts, and traces the federal government's role, through the National Park Service and the National Archives, in administering and maintaining these sites. Section two the most extensive part of the book presents short anecdotal biographies of each president, followed by a description of the relevant home, museum, or library sites. Basic locational and access information is also provided for each site. Section three identifies sources of additional information related to the theme of the book, and provides lists of presidential birthplaces, burial sites, and associations related to presidential history

History buffs will cherish this well-detailed and -illustrated guide to the places where U.S. presidents were born, lived, are buried, and where applicable, have their archives housed. --Booklist, April 15, 1996  
About the Author  
After spending 42 years in the advertising and broadcasting industry, where he worked with such television icons as Groucho Marx, Johnny Carson, and Milton Berle and spent twelve years as censor for Saturday Night Live. William Clotworthy retired and began to travel, to lecture, and to write. Now he turns his attention to identifying and describing sites commemorating American presidents a subject of his own personal interest and one for which he found a lack of solid information as he began his travels across the country. One result is this comprehensive and enjoyable interpretive guidebook. Clotworthy is also the author of *Presidential Sites: A Directory of Places associated with Presidents of the United States* (1998; \$22.95) and *In the Footsteps of George Washington* (2002; \$24.95).
