Carol M. Highsmith, Ted Landphair : Houston : Deep in the Heart before purchasing it in order to gage whether or not it would be worth my time, and all praised Houston : Deep in the Heart:

About the AuthorPhotographer Carol M. Highsmith is a Washington, D.C. architectural photographer whose work has been published in more than fifty books to date. Among her books on landmarks of the nation's capital are Pennsylvania Avenue: America's Main Street, Forgotten No More: The Korean War Veterans Memorial, Embassies of Washington, and Union Station: A History of Washington's Grand Terminal, all written by her husband, Ted Landphair. Her other major titles include America Restored and the Crescent Books travel series highlighting two dozen cities, states, and countries around the world. Highsmith's photograph's have been featured in magazines such as Life and Smithsonian as well as in exhibitions. The Carol M. Highsmith Archive at the Library of Congress preserves her collection of photographs documenting America's landmarks. Ted Landphair is the author of several books on significant American places. A Peabody Award-winning writer and broadcaster with the Voice of America, he has served as associate editor of New Orleans' weekly business newspaper, reporter for the National Observer, and news director of WMAL radio (ABC) in Washington, D.C. Landphair has also taught journalism at universities in Texas,

Louisiana, Wisconsin, and Washington, D.C.
