Ann Cook : How Well Does Your Child Read, Write, and Do Math?: Step-by-Step Methods for Parents to Assess and Develop their Child's Skills before purchasing it in order to gage whether or not it would be worth my time, and all praised How Well Does Your Child Read, Write, and Do Math?: Step-by-Step Methods for Parents to Assess and Develop their Child's Skills:

5 of 5 people found the following review helpful. MUST HAVE FOR ALL PARENTS!!By T. NelsenThis is a great book for assessing your child's education so that you can catch deficiencies and correct them before they snowball. Thank you, Ann Cook! You've done all conscientious parents a tremendous service by writing these 3 books...I also love that they are now compiled into 1 book. Unfortunately, you can't just assume your child is learning all the essential skills in today's schools. Trust, but verify!!

The essential information contained on these pages reveals the truth about how a child is really performing in the classroom. Concerned parents can find the answers to: What is my child's learning style: auditory, visual, or tactile? Is my child's reading ability at grade level? What are the national standards in writing at my child's grade level? Does my child have special abilities in math?This easy-to-use manual is a roadmap to academic success. All parents who want their children to succeed in school need to read this book.
