While the modern state park warrants a bigger, better book of photography, Vreeland's book is heartfelt and personable, a work of memory and history that will appeal to anyone who has made a deep connection with this unforgettable island.1 of 3 people found the following review helpful. *Hunting Island A Love Story In the Midst of Change*By Sandeli was a little disappointing It could have been a little more detail, with more stories included in the book.The photos were very beautiful. I have been going camping at Hunting Island ever since I was two years old. I was expectingmore from the book, for the price that I paid for it.0 of 0 people found the following review helpful.
