There are no words, I find this woman to be a one of a kind type of person. She has the ability to take the harshest of atmospheres, and make you acknowledge the beauty within them. I worked at Barnes and Noble for awhile in Boulder, CO. awhile back and I had been recommended her books from a frequent customer/traveler. My brother has worked in Alaska for the past two winters and I gave it to him as a gift. He soon will travel to Antartica, I couldn't imagine doing it myself but I would love seeing her compilations from there if she decides. I'M A HUGE FAN. 0 of 0 people found the following review helpful. Dreamy By Philemon Spencer Great little book. Photos with vintage effects help create the mood. Attention given to small personal details gives a first-hand feeling to connect the reader with the subject. Gave to my wife, and she loves the book. 0 of 0 people found the following review helpful.
