Perfectly captures essence of Cape CodBy MaryThis is a book to be savored, slowly lingering on each page, taking in the words and the imagery: you can almost smell the salty sea and reach out to touch the boats, the fences and gabled houses that make up the storied villages of Cape Cod. We travel to Cape Cod every summer and when we're not there, it haunts us, inviting us back to rediscover what we know so well already. But each year, without fail, there is something new to greet us, along with the very familiar sights, smells and sounds which rise up to embrace us and ensure we'll be back again next summer. When we're unable to be there in person, this wonderful book allows us to live there year-round. A MUST-READ for anyone wanting to peek into the special'ness of Cape Cod, and for anyone wanting to recapture it while you're not there!

A poem with colorful pictures describing Cape Cod and all its natural beauty and small town New England charm; the perfect gift for anyone who loves Cape Cod, and especially summer vacations on Cape Cod.
