It provides a predictable set of informtion regarding every town, county, creek, river, peak, lake, post office,spring, pass, landing, mountain, canyon, park, basin, or bay in Idaho. Information includes origin of place name, coordinates, county, elevation a brief history. A map of Idaho's counties is

on the inside front cover. More maps, such as a map of each county, would have been fun. JGR 0 of 0 people found the following review helpful. Very Interesting Read By Carpenter For Christ This is surely the book for the curious - especially if you are from Idaho or plan to visit.
