**James Kavanagh, Waterford Press : Idaho Trees Wildflowers: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Idaho Trees Wildflowers: A Folding Pocket Guide to Familiar Species (A Pocket Naturalist Guide):

3 of 3 people found the following review helpful. Perfect For Roaming In The Woods By Oakley This was a gift from me to my brother who recently moved to the wilds of Idaho. He reports that it is very helpful in identifying some of the foliage on his property, and that it is easy to carry as he roams the woods. I also sent him a larger, more comprehensive tome that he can peruse once he gets back home, but this little one is helpful in the initial identification. I don't think it can be criticized for lack of information because it is made for compactness and tote-ability, not as the definitive word on all things green in Idaho. Anyway, my bro was very pleased with it. 2 of 2 people found the following review helpful. Easy to carry, colors are good By Doc W8 Pocket guide is useful to carry out into the local meadows and woods. Limited to the really commonly occurring flora. Arranged by color of flower, a useful way to zero in on a new one. Liked the illustrations. Ideally, this could be expanded into two guides, one for trees and shrubs, and one for just flowers. 1 of 1 people found the following review helpful. Works for a centenarian! By KSTH Easy enough to manage that my great-aunt, a naturalist, can enjoy looking at it in her nursing home.

Idaho's Operation Wildflower program is to have native species growing along the state highways. The state flower, the syringa, is one of thousands of species of plants growing in the diverse ecosystems found throughout the state. This beautifully illustrated guide highlights over 140 familiar and unique species of trees, shrubs and wildflowers and also includes a map featuring prominent botanical sanctuaries. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
