The trifold has only male versions of the birds and very limited descriptions. I would keep looking and skip this one. 0 of 0 people found the following review helpful. Easy reference guide By Ramona Great quick reference bird guide so my mother in law doesn't have to flip through pages and pages of information. Love that it's laminated to protect it from spills when she gets over exuberant in her bird findings;) 0 of 0 people found the following review helpful.
