**Suzanne Ellery Greene : Illustrated History of Baltimore** before purchasing it in order to gage whether or not it would be worth my time, and all praised Illustrated History of Baltimore:

2 of 4 people found the following review helpful. Not as I thoughtBy TallandslenderI purchased this as a gift for my hubby and it was not what I thought. I believed this would be a good coffee table book with lots of pictures of my home town, but it wasn't. There are great reading sections, but I thought I could leave it on a table and people could scan through it. They would have to sit for hours to read it all. More like a library book no coffee table book.

This Text contains a historical accounting of Baltimore, Maryland, using word, illustrations, and photograhps.
