If your stay includes actually going down into the canyon, this historical map is a real find. I had no idea there had been actually communities residing inside the canyon at one time...and there the residents were actually buried inside the canyon at numerous grave sites. History buffs will benefit from not only the map of some of the grave sites, but also from photos and historical bios of those whose remains remain in the Canyon. Quality product at a reasonable price.0 of 0 people found the following review helpful.
