Edith Wharton : In Morocco before purchasing it in order to gauge whether or not it would be worth my time, and all praised In Morocco:

6 of 6 people found the following review helpful. This book is very old and was meant as one of the first travelbooks for the country but it was a joy to recognise the things I hBy TulipYears ago I went on a holiday to Morocco. This book is very old and was meant as one of the first travelbooks for the country but it was a joy to recognise the things I had seen while visiting. It has a very pleasant style of writing and if you are going to Morocco I would certainly

recommend reading it. But also for the armchair traveller a very good and cheap read. 6 of 6 people found the following review helpful. Play It Again, Edith By Narda Beautifully written...she can really conjure up pictures with her words. (A good thing, because the pictures in the book are not included in the Kindle version) It is very interesting to read this book depicting her travels in Morocco around WWI in the light of current Middle East politics. Do our statesmen ever read books like this? 17 of 17 people found the following review helpful. In Morocco - Edith Wharton By sarah ducas Edith Wharton's vivid description of her journeying through Morocco in 1917 is better than any contemporary guide book. Full of amusing and detailed descriptions of her drive from Tangiers down through Fez and Rabat to Marrakesh, one has to remember the condition of the roads back then and the length of time taken. In addition it gives a detailed history of the country and its rich Islamic heritage. The bazaars in Fez remain today as mysterious and crowded with their tanneries, silk and rugs, chickens and donkeys as they were almost a hundred years ago.

In Morocco Edith Wharton is a great novel. The great American novelist Edith Wharton (1862-1937) here gives us her colorful and textured travel memoir "In Morocco" (1920). Still a deeply energized work, Wharton imbues the reader with a sense of wonder that served as the impetus for her travels into this exotic Northern African land. Edith Wharton made her name as a novelist closely associated with the prolific Henry James. Their personal and literary kinship may be seen in much of her long and short fiction. And just as Henry James' travel novels arrest and captivate, so too does "In Morocco". This account explores the culture, history, and beauty of a Morocco of yore in an intriguing combination of realist and romantic prose. Wharton weaves together anthropology with poetry, depicting the customs and manners of this place in all its splendor. Written with the eye of a documentarian, "In Morocco" is a breath-taking read full of wanderlust. In Morocco by Edith Wharton is a novel highly recommended to read.
