2 of 2 people found the following review helpful. This book is just great! Like her first book By Denise Lassey This book is just great! Like her first book, Ski Town Soups, Aprs Ski showcases recipes from ski areas across the country, and ranks them from easiest (green slopes) to more difficult (black diamonds) using ski symbols. It is such a clever concept, and cooks of any skill level can use this book! And the photography is fabulous enough for it to be a coffee table book. 1 of 1 people found the following review helpful. which can be annoying.
