Kathleen M. Kendrick, Peter Liebhold : Smithsonian Treasures of American History before purchasing it in order to gage whether or not it would be worth my time, and all praised Smithsonian Treasures of American History:

0 of 0 people found the following review helpful. Nice touristy book. By Katy I've been there twice, if only more of the amazing collection was on display! The book has nice, pertinent descriptions and excellent photographs. 0 of 0 people found the following review helpful. Like it a lot By Megan D. Gist-Owen We went to the Smithsonian and I got this

book. Like it a lot 2 of 2 people found the following review helpful. Excellent eyesight required By Jim Not overall impressed with the contents, partially due to the amount of material compressed into a rather small book. Majority of print so small that even with good vision a magnifying glass almost a must.

The National Museum of American History--our country's largest history museum and one of the Smithsonian's most visited--preserves three million objects that capture the American story. From this vast collection, curators have handpicked more than 150 of the Museum's most valued and amazing treasures--from the hat Lincoln wore the night he was assassinated to Jacqueline Kennedy's inaugural gown and Dorothy's ruby slippers; from Alexander Graham Bell's telephone to Edison's light bulb and Albert Einstein's pipe; from an early box of Crayolas to one of the oldest pairs of Levi's. Four separate sections devoted to "Creativity and Innovation," "American Biography," "National Challenges," and "American Identity" reveal fascinating juxtapositions and startling connections on every page. This visual cornucopia of the material culture of American history reveals the familiar, the famous, and the unexpected at every turn.

About the Author Kathleen M. Kendrick and Peter C. Liebhold are curators at the National Museum of American History.
