M. John Fayhee : Smoke Signals: Wayward journeys through the old heart of the New West before purchasing it in order to gage whether or not it would be worth my time, and all praised Smoke Signals: Wayward journeys through the old heart of the New West:

M. John Fayhee's wayward wanderings have seen him illegally backpacking through the world's deepest gorge in China, paddling across crocodile-infested waters in a leaky Zodiac in the Dominican Republic, rafting the Chattooga River with the banjo-playing boy from "Deliverance" and coming face-to-face with a giant statue of Christ in Colorado's San Juan Mountains. Fayhee has recounted many of these off-the-social-grid mis-adventures in his monthly "Smoke Signals" column for the Mountain Gazette, of which he is the editor. Fayhee has distilled his favorite "Smoke Signals" tales into his latest book: "Smoke Signals: Wayward Journeys Through the Old Heart of the New West."
