Mr. Brad Bertelli : Snorkeling Florida: 50 Excellent Sites before purchasing it in order to gage whether or not it would be worth my time, and all praised Snorkeling Florida: 50 Excellent Sites:

10 of 10 people found the following review helpful. Finally, a book for snorkelers!By AI had bought other books purporting to identify and describe both diving and snorkeling sites, only to discover that all of the "snorkeling" sites were actually offshore scuba sites with a bit shallower water. I have ear problems and cannot pressurize deeper than 6-

8 feet, so these other books were useless to me. This book describes both offshore and inshore/beach sites, both deeper and shallower. I will update this entry once we take our Florida Keys trip in April '13. 4 of 4 people found the following review helpful. Good book for offshore. By Lorry Chris in FL. My husband and I bought this book to see if we could combine our snorkeling and kayaking. Unfortunately this book is mostly about offshore sites. 0 of 0 people found the following review helpful. Seems to like it, good pix. By T H. Bought as a gift. Seems to like it, good pix.

'Snorkeling Florida' identifies 50 snorkelling sites from the Panhandle to the Keys. The information given for each site includes: directions, boat ramp locations, physical characteristics of the site; likely wildlife to be spotted; best times to explore; and historical information about the area.

"There are plenty of scuba-diving guides available covering South Florida and the Caribbean, but there might be only one Florida snorkeling guide. Brad Bertelli, a 2001 Masters of Fine Arts graduate of the University of Miami, has written *Snorkeling Florida: 50 Excellent Sites* (University Press of Florida, \$24.95). The comprehensive guide covers the shallow water realms from the Panhandle through the Keys, rating each site by difficulty and including helpful logistical information, such as boat ramps and sightseeing opportunities." --Miami Herald "Brad Bertelli is an award-winning writer and snorkeling enthusiast who has channeled his talent and passion into a new guide book. Snorkelers from beginners to experts can learn something from this comprehensive look at 50 of Florida's best underwater sites. Bertelli covers the best public sites, complete with difficulty level, animal life, equipment concerns, and more." About the Author Jerry Wilkinson moved to the Florida Keys in 1947. The president of the Historical Preservation Society of the Upper Keys, Wilkinson is a mentor to Brad Bertelli, a member of the Florida Outdoors Writers Association and vice president of the Historical Preservation Society of the Upper Keys. In addition to the collaborative efforts of Wilkinson and Bertelli on Islamorada and Key Largo, Bertelli has published two books with the University Press of Florida.
