David Calahan : Snow Camp Lookout: View with a Room Mouse Included before purchasing it in order to gage whether or not it would be worth my time, and all praised Snow Camp Lookout: View with a Room Mouse Included:

1 of 1 people found the following review helpful. Great little book. By F. MCADOO This is an entertaining book describing (mostly) the adventures of the folks who stayed at this lookout. I stayed there for a few days several years before it was destroyed. Most of the book is just a copy of the log book in which the guests wrote about their experiences. I believe the log was destroyed with the lookout, so this is the only remaining record of these

experiences.0 of 0 people found the following review helpful. great view, etcBy TJBAlmost entirely journal entries from a lookout rental. Windy, great view, etc. That's about it...
