**National Geographic Maps - Adventure : South Africa (National Geographic Adventure Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised South Africa (National Geographic Adventure Map):

11 of 11 people found the following review helpful. If you are going to drive, you need thisBy Clarence E. ForsytheBest coverage of road net. Map is made of a coated material that stands up to three weeks of constant folding and unfolding with no sign of wear. It is waterproof for sure as I spilled drinks on it twice. This map is critical for trip planning and "on the run" re-scheduling of your route when you hit (and you WILL!) the 9th unacceptable road construction delay of the day. Combine this with a Tom-Tom GPS unit and you will be able to cruise the entire country with no location problems. The big plus is the extensive coverage of natural and cultural features and game parks and reserves that you might otherwise miss on your drive.2 of 2 people found the following review helpful. Durable, but beware the dirt roads!By B in CAThis map is okay, but not great.The good:- it's VERY durable (awesome!)- it's mostly accurateThe bad:- it's not entirely accurate. In particular, it is not very good about knowing which roads are dirt, and which are not. (This becomes very important after heavy rains.) Luckily, helpful locals steered us away from areas that could have been total disasters, and for the others, well, at least we were in an SUV, so we made it through. (But on a rough dirt road, things take a lot longer than they would on decent pavement.)Photo:- contrary to the map, not a paved road :/7 of 7 people found the following review helpful. A great referenceBy Marcia J.M. WattsI chose this map for a 3 week land tour of South Africa. It was great to track where we were going each day and gave me an overall concept of the country. I would recommend it for anyone going on such a trip. Others on the tour borrowed it several times for their own reference.

Waterproof Tear-Resistant Travel MapNational Geographic's South Africa Adventure Map provides global travelers with the perfect combination of detail and perspective in a highly functional travel tool. Hundreds of points of interest that highlight the diverse, unique, and exotic destinations within the country such as national parks and reserves, sanctuaries, World Heritage sites, archeological sites, and museums are noted. Along the coast between Cape Town (the legislative capital) and Port Elizabeth, areas for whale watching and shark-cage diving are noted. Dozens of beaches are noted from the Sunshine Coast to the North Coast for travelers wishing to soak up some sun. The map includes the locations of cities and towns with a user-friendly index, plus a clearly marked road network complete with distances and designations for major highways, main roads, and tracks and trails for those seeking to explore more remote regions. Important travel aids like airports, airfields, rail lines, ferry routes, and lighthouses are included as well.The west side of the South Africa map includes the Northern Cape, Western Cape, Eastern Cape, and portions of the North West and Free State provinces. Johannesburg and neighboring city Pretoria (administrative capital) are included on the east side of the map along with Bloemfontein (judicial capital) and the coastal city of Durban. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of international travel.Map Scale = 1:1,550,000Sheet Size = 25.5" x 37.75"Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
