By eileenvedado I am really enjoying this book with the old stations. Mostly, if not all of the lifeguard towers, are new and modern. This book with its beautiful images is more than what I was expecting.

By Dennie This Author, Susan Russell, captures the heart and soul of the beautiful beaches of Miami. Thanks to her huge effort to share these hidden jewels with us, one is able to look upon Miami and realize the beauty that exists in between the restaurants and hotels, the TRUE South Beach with a glimmering life of its own upon the clear tropical blue waters, small oases' within the huge oasis that is Miami.

South Beach and Miami Beach, Florida, have dozens of whimsical, colorful, and sometimes wacky lifeguard stands that have become media stars in their own right, including the "Lighthouse Guardhouse," the "Surfboard," and the "Putting Green Guardhouse." In 64 brilliant color photos, these amazing stands and the dazzling scenery surrounding them are beautifully portrayed. Manned by a cadre of professional lifeguards, these stations have become a famous backdrop for the fun-filled life on the sands and in the seas, as swimmers, boaters, para-sailors, and sun-seekers flock to the beaches with their cameras and their sunscreen. Engaging text provides the history of these colorful and fanciful lifeguard stands, and designed in 1992 after Hurricane Andrew, and again after the storms of 2005. The lifeguard stands currently on the beach and those lost in years past are all presented and preserved in this wonderful book.

About the Author Susan Russell is an award-winning photographer and former newspaper reporter who has worked in Florida since 1975.
