with this course. My only regret is that it suggest that there are at least 12 other follow up CD's that cost a small fortune to get or just plain unavailable to an American. The coupons included are for use ONLY by a resident of the U.K. Everyone else pays through the nose for the missing 12 CD's!!0 of 1 people found the following review helpful. Interesting unique featuresBy Wally NeilsenThis is above average for a listen and learn audio course, with a couple of interesting and unique features. A lot of the dialog is embedded in a continuing story, which puts it in context and limits the boredom factor. The main character is an English visitor arriving in Spain, so it naturally covers the usual travel phrases. Each section ends by repeating the dialog with Spanish speakers at normal speed, giving the practice you will need to understand a real Spanish speaker. It is mostly Castellano, European Spanish, but it includes several characters from Latin America, so it can cover the differences between American and European Spanish. The differences don't matter much, but I am glad to know the differences and how little they matter. I'm planning to visit Andalucia, where the Spanish apparently falls somewhere in between.3 of 10 people found the following review helpful. Cool ProductBy beezeeThis is a very cool product. I find myself learning quickly. I would recommend it to anybody.

On-the-go Instrction Because your time is valuable... All Audio All on the go! Beginning level instruction is presented in an all-audio format on 4 digitally-recorded CDs. You have the opportunity to learn on the go, taking advantage of time normally wasted. Study in your car, while exercising, doing yard work anywhere you can safely listen to a CD player. No accompanying books are needed to help you complete the lesson activities. Why can t learning be fun? It can! Linguaphone has chosen to present the allTalk series in an entertaining, soap-opera format. No dry old teacher with a monotone voice putting you to sleep, you follow the adventures of a visitor to a Spanish-speaking country as she interacts with individuals in a variety of interesting situations, learning the language and beginning to understand the culture. Actually learn the language Tired of spending money on language courses that don t work? Did you ever think the problem could be with the course and not you? With Linguaphone s unique learning sequence: Listen, Understand, Speak, you will find yourself actually using the language in no time at all! You are presented with a unit of the language, it is then broken down and explained to you, then you put it back together with greater understanding than just repeating what you may not have understood in the first place.. . . and learn it well! The all Talk methodology not only teaches well, but will have you speaking and understanding basic spoken Spanish in no time at all. Other popular all-audio courses require four times the cds, four times the money and four times the time to do what Linguaphone s allTalk Basic does with 4-one hour CDs.
