By Customer Society molds us from birth and most of what we believe is fostered upon us by scholars who have followed the trail of earning a degree that enables them to dictate what occurred in the past. And like obedient soldiers we believe the knowledge gleaned from outside ourselves. Then along comes Sonja Grace who, through meditation and connection from within, blows that worlds apart. Her spiritual adventures are both fascinating and riveting. She brings the past to a new light that is an inspiration for all who seek truth from within. Michele Biernot

We have relied on science to tell us what happened in ancient sites around the world, it is time for research that is connected to Source Sonja Grace Spirit Traveler: Unlocking Ancient Mysteries and Secrets of the Worlds Great Historic Sites takes a unique approach to analyzing why famous historic sites, including the Great Pyramids, Stonehenge, and Tiwanaku, were constructed. There have been thousands of books written about these sites from the perspective of scientists and archaeologists. While this information is crucial to our knowledge, much of the mystery about them remains unsolved and questions surrounding their purpose have lingered through the centuries. Spirit Traveler offers a completely different perspective on the purpose of these sites and the reasons for their construction and is the companion book to the documentary Spirit Traveler which will be released around the same time as the book. Only Sonja Grace, the internationally known mystic healer, is able to reveal the secrets of these ancient buildings in this new and fascinating way. Sonja is a Spirit Traveler deeply devoted to the protection of our beautiful Earth. She has spent a lifetime working in the ethers with angels and guides. She sheds light on what the people and cultures of the past were doing at these sites and why, offering a brand new understanding of the events that took place there centuries ago. Sonja Grace brings her unique understanding of the truth to history. In Spirit Traveler, Sonja travels back through the realms to reveal history as it happened. She answers the questions that have puzzled historians and archaeologists for hundreds of years: What was the purpose of Stonehenge? How were the Great Pyramids built, and why is their particular geometry so significant? Why was Skellig Rock so important to the monks? Have our beliefs about these great sites been wrong all along? Is their importance something other than what we have always thought? Sonja Graces discoveries shine a whole new light on our historical understanding of these places and on their relationships to the Earth. Sonja Grace aims to bring a new spiritual truth to these questions and fulfill her purpose in the awakening of humanity. Spirit Traveler is a purposefully structured book. Sonja discusses eight specific historical sites: Skellig Michael Tiwanaku - The Gate of the Sun Stonehenge Hagar Qim St. Winifrides Well Chichen Itza and Temple of Kukulcan The Great Khafre Pyramid the Rock of Cashel. Each chapter tackles the scientific and historical information available about each site up to this point in time. Sonja addresses the questions that continue to puzzle archaeologists and historians. The second half of each chapter is devoted to Sonjas Spirit Traveler experience, what she learned, and the answers to some of those longstanding questions. Few people possess the gifts of Sonja Grace. Her heritage (part Native American, part Norwegian) provides her with the extraordinary ability to transport anywhere. She sees, hears, smells and feels the places she visits. In Spirit Traveler, Sonja shares every single detail of her riveting travels through space and time. Her work is marked by her distinct understanding of the dimensions and realms along with the convergence of Divine and Earth energies, which allows her to travel through the ethers and gather historic information.
