I suppose it's my fault that I didn't read the small print to see that this map is from 1998. The area has experienced such growth in the last 15-20 years that these maps are sadly out of date. I'm sure if I had moved here back in the day it would have been very helpful. The area where I live isn't even on the map. Pretty much a waste of money. 0 of 0 people found the following review helpful. Why So Costly? By Surf0341 I needed this map because I started working in the county, and did not know my way. When I looked at others, this one seemed to be the best one available. What I did not know was that on

the cover of the book, it says \$10.95! I paid over \$50, for it. Overall, Great tool to have.-M0 of 0 people found the following review helpful. Old Style Map BookBy Visweswara TekumallaWhile I-phones, and GPSs are out there, I still like these old style street maps of a particular areas. They give you a good idea of where everything is in relation to others, and are easy to use. St. Mary's county map was no different.
