Adah Bakalinsky : Stairway Walks in San Francisco before purchasing it in order to gage whether or not it would be worth my time, and all praised Stairway Walks in San Francisco:

0 of 0 people found the following review helpful. I recommend taking a couple of extra days to do some ...By rickThe standard tourist fare of Fisherman's wharf, Pier 39, Coit Tower and the Golden Gate Bridge are all worthwhile, but if you really want to see "The City" as only the locals do, then buy this book. For anyone going to San Francisco, I recommend taking a couple of extra days to do some of the walks in this book. Most of them only take a couple of hours, but they will take you to places that otherwise you'd never see. A forest full of parrots? A street that only exists on maps (a paper street), but is a beautiful wooden walkway? A tour along the original shoreline before fill was added to the bay? How about a walk from Lands End to a view of the "other side" of the Golden Gate Bridge? Still not curious? Take the kids on an exploration to find Yoda in the Letterman Digital Arts Center. The book is your way to find the magic in The City.0 of 0 people found the following review helpful. I expected walks around SF but more about STAIRWAYS you ...By silicon valley userI expected walks around SF but more about STAIRWAYS you find on their walks, versus interesting walks in general - I don't hike and walk just to do stairways0 of 0 people found the following review helpful. Great resource for exploring SFBy AMZ customerGreat book for finding gems in SF. Good for gifts or even for locals.

This is a fully updated and expanded edition of a best-selling Wilderness Press classic. Now with additional walks and 16 pages of full-color photographs, Stairway Walks in San Francisco contains step-by-step route descriptions that

include notes on historical background, architecture, and other points of interest. Accompanying each of the 27 walks is an easy-to-follow map with corresponding numbered walk directions and public transportation information. Locals and tourists alike have used the book for over 20 years to explore San Francisco's beautiful neighborhoods.

It's especially satisfying to see a new edition of this out-of-print title, which remains unique in its coverage of San Francisco's little known stairways. All 27 walks have been updated for this new edition to cover the latest landmarks along the way. Destination-oriented visitors who enjoy unusual urban walks will be pleased. -- Midwest Book From the Back Cover Adah Bakalinsky is the queen of San Francisco's majestic and quirky stairways. Walker nonpareil and veteran guide, she explores the hidden corridors and cul-de-sacs of San Francisco, charting neighborhood changes by gathering stories from residents, gardeners, and shopkeepers.
