However, it's more about the ships themselves rather than their itineraries.2 of 2 people found the following review helpful. Good, but out of dateBy Daniel Rosado CarneiroIt's a good book, but some data about cruise lines and ships are out of date. The info about cruise ships are poor (it could be more complete and organized as in Berlitz guide). This guide is better for passenger asking for info about destinations

(but the info on Brazil is also poor - there's no reference to important destinations as Bzios, Ilhabela, Florianopolis, Fortaleza, Recife, Natal and the paradise islands of Fernando de Noronha).Daniel R.CarneiroCruising On LineEditor[...]0 of 2 people found the following review helpful.
