I can see how this would be very useful before smartphones and Google maps, but compared to today's technology there is very little content. I preferred to use a small map print out from Google maps and my smartphone rather than this. I do not understand why the price is as high as it is0 of 0 people found the following review helpful. Definitely the best city mapBy sfl have purchased lots of different city maps over the years for places we are visiting. The Street Wise ones are definitely the very best. They are easy to read; uncluttered appearance but filled with the maximum amount of information. Lots of the travel stores and bookstores carry the other brands but not this one so I get them via . They are outstanding.0 of 0 people found the following review helpful. Awesome Map!By Melissa T.As NEW New Orleanians, the Street Smart map has helped us tremendously. Sure you can plug directions into a GPS to get around, but you miss so much of the detail that way. These maps are SO much easier to see and read to figure out the grand scheme of this beautiful city. Our first one is carried around in the car, and I've ordered a second just for our visitors! A favorite saying here is "Laissez les bon temps rouler" (Let the good times roll!), but don't roll without your Nola Street Smart map!

VanDam's award winning New Orleans StreetSmart maps all top attractions including museums, major architecture, hotels, and shopping destinations - all at an immensely legible super-scale, complete with 3-D building illustrations. Clear information design allows users to read the map from three feet away and has earned VanDam maps a place in the MoMA Collection. The NOLA StreetSmart includes a stunning dimensional detail of the Central Business, Warehouse, and Garden Districts, the French Quarter, MidCity and the Lakefront. Edition includes a map of the NOLA Metro Area and a Metro Transit map. Simplicity reigns supreme in information design to make complex cities clear and understandable. Our typography creates character and reveals the true bones of the city. VanDam uses a letter grid to identify locations on maps - no confusing and cluttering K-28 or V-34s - its just the city from A-Z. Our covers map the icons of each city and turn them into collectible graphic art. Each sleek and laminated city map package opens to 24" x 9" and then easily folds down to 4" x 9" to snugly fit into a shirt pocket or purse. Gain instant NOLA StreetSmarts and a sexy souvenir to boot!
