Stephan Van Dam, Illustrator, Editor : StreetSmart NYC Transit before purchasing it in order to gage whether or not it would be worth my time, and all praised StreetSmart NYC Transit:

3 of 3 people found the following review helpful. Font Size too SmallBy S. StantonFont size is a little small for older eyes

VanDam's award winning NYC StreetSmart Transit Edition maps the complete MTA subway and bus system for all 5 Boros - all at an immensely legible super-scale. Clear information design allows users to read the map from three feet away and has earned VanDam maps a place in the MoMA Collection. The NYC StreetSmart Transit Edition includes a stunning dimensional detail of The City of New York and its 5 Boros with all MTA subway, bus, LIRR, and MetroNorth lines. Also includes a Subway Service Guide, Bus Connections for each boro, and a unique ""How to Get There"" guide for all of the top attractions! StreetSmart maps are updated several times a year and are more current than any other map available. Simplicity reigns supreme in information design to make complex cities clear and understandable. Our typography creates character and reveals the true bones of the vertical city. VanDam uses a letter grid to identify locations on maps - no confusing and cluttering K-28 or V-34s - its just the city from A-Z. Our covers map the icons of each city and turn them into collectible graphic art. Each sleek and laminated city map package opens to 24" x 9" and then easily folds down to 4" x 9" to snugly fit into a shirt pocket or purse. Gain instant NYC StreetSmarts and a sexy souvenir to boot!

"...A Connoisseur's Map!" --USA Today"For savvy travelers." --Playboy Magazine"The Map." --The New York TimesAbout the AuthorStephan Van Dam, AIGA is an award-winning cartographer, graphic designer, and information architect. He is the president, principal and creative director of New York-based VanDam Publishing. Twenty-seven of his maps are in the MoMA Collection. The universal power of maps has been his guiding passion for the past 25 years and fuels his desire to tell stories and construct new realities through maps in all media. He's has mapped over 85 world cities, and holds several patents in the field of paper engineering and origami map folding. His work has been honored by the Industrial Design Society of America (IDSA), the American Institute of Graphic Arts (AIGA), the editors of ID magazine and has been featured on national television and been sighted in numerous feature films.
