Not wallet size, at least for me...By Phillip RoncoroniGiven the cheap price of this map, I decided I should purchase one in case I'm lost one day and my iPhone has run out of battery. Plus, it fits in my wallet, so I can't go wrong, right? Well, no.I have what I'd say is a "standard" tri-fold wallet. It's pretty bulky actually and I have about thirty different cards in there between credit cards, loyalty cards, insurance and IDs. So this isn't some tiny wallet. However, despite claiming to be "wallet size," this map doesn't fit in my wallet and therefore is useless to me.Folded, this map measures 4"x2.7".0 of 0 people found the following review helpful. Definitely a good product if only paying two dollars.Time will tell if this gets an upgrade to something fancier or not.
