I love how it shows the locations of the various Disney hotels. Best map I have seen in any book store. The only minor downside is that this map is not updated every 2 years.0 of 0 people found the following review helpful. Very confusing mapBy Wilson MoscosoThis map is done with a very good material, but it's so confusing. The front page send you to the other side to go south but does not match with the graph. Minus five stars (-5).

Streetwise Orlando Map - Laminated City Center Street Map of Orlando, Florida - Folding pocket size travel mapThis map covers the following areas:Main Orlando Map 1:27,000Downtown Orlando Map 1:22,000Walt Disney World Resort Area Map 1:44,000International Drive Map 1:44,000Orlando was once a sleepy small Florida town surrounded by cow pastures and citrus groves. Then the Mouse moved in. In a flash of pixie dust those 47 square acres of cow pastures turned into fairyland castles and citrus groves became thrill rides.While Walt Disney World isnt the only attraction in town anymore - Universal Studios, Discovery Cove, and Sea World have joined the party - it's still the major player in town. Engage in a completely different kind of thrill sport found at the several upscale outlet malls around International Drive. Conventioneers flock to the Orange County Convention Center for meeting by day then disperse for fun in the evening, many heading to Downtown Orlando to find everything from dance clubs and comedy clubs, to martini bars to sports bars. And then theres golf and plenty of it! Over 168 golf courses dot the landscape. No wonder Tiger Woods called the Orlando area home for several years before purchasing a compound north of Palm Beach. He may still keep his property here, so look for him if you're on the links.The STREETWISE map of Orlando presents an overview of the region, and then breaks it down into comprehensible areas. The Orlando Area map splits the city north to south with all main highways, roads and featured attractions. An inset of Walt Disney World Resort Area illustrates all the attractions plus hotels within Disney World. The International Drive map details all sites and hotels along this dense corridor of Orlando. Finally the Downtown Orlando map provides all the detailed information you'll need to navigate in and around the downtown area. The Orlando Museum of Art is located here as well as the Expo Center and the Bob Carr Performing Arts Center.A complete index of streets, a list of hotels and resorts, points of interest, shopping, theme parks, culture, and green parks and lakes is clearly listed on the STREETWISE Orlando Map.Our pocket size map of Orlando is laminated for durability and accordion folding for effortless use. 'Don't leave home without STREETWISE.' --The New York Times 'STREETWISE is an absolute travel essential.' --Travel + Leisure Magazine 'In a strange city, your sense of direction is only as good as the map in your hands. The best maps to carry are published by STREETWISE.' --Chicago Daily Herald About the AuthorSTREETWISE is the first map to be designed with modern graphics and is the originator of the laminated, accordion-fold map format. Weve set the standard that every map company has imitated but never duplicated. Our mission is to make you feel comfortable, to make you feel safe in a place where youve never been before and to enable you to experience a familiar place more fully.The company was founded in 1984 by Michael Brown, who had been in international publishing for many years, setting up subsidiaries for textbook publishers. In the 1970s, Brown traveled extensively throughout Africa, India, the Middle East and Southeast Asia. Brown would take a large paper map, cut out the city center, folded it up and slip it into his pocket, thus preventing him from looking like a tourist in areas where discretion is the better part of travel. This was his tool for surviving.After many years on the road, Brown settled back in New York and decided to start his own business, based on the adaptations he had made to maps in his travels. His goal was to give someone the ability to navigate easily in unfamiliar terrain.He started with a new map format: the accordion fold. Such a simple idea, but at the time it was revolutionary. No more struggling to fold an awkward, oversized paper map. This new format would enable the user to blend in like a native, instead of stick out like a tourist. Brown then

added lamination to ensure that the map would be a lasting tool. More important than the format was the design of the map itself. It had to be a map that not only succeeded above and beyond any map he had used, but was esthetically appealing as well. The look of it had to be as striking as the functionality. Color was introduced in a way that was never seen before in a map - vivid purple for water, soothing gray for the background of street grids, gold to highlight elements of the map. Clarity, conciseness and convenience in a very stylish package. Building the business was a 24 hour job. Brown sold the maps during the day, zipping around Manhattan making deliveries on his Harley Davidson. At night he packed the orders and did the design work. More titles were added, each title requiring months of research and design. Today, STREETWISE produces over 130 titles for major destinations, regions and countries throughout the United States, Canada, Mexico, Australia, Europe, the United Kingdom and Asia. We have grown from the back of a motorcycle to selling millions of maps around the world. Yet each title is still painstakingly researched and updated. STREETWISE is one of the only, if not THE only map company that conducts research by walking or driving an area to ensure accuracy. After all, what good is the map if what you hold in your hands doesn't match what you see on the street sign? This lengthy fact checking results in superior accuracy; in effect, we've done the work, now you have the adventure. In the end, it's not about the map, it's about getting out and finding your own authentic experience wherever you go. It's about being in a city or a region and discovering things that you never thought you would find. You can do this if you have confidence and you have confidence if you have a great map. STREETWISE is the great map that you need.
