All Kinds of PerfectBy ShanshadI have a train obsessed son who lives in NYC and constantly tells me about the subway routes and trains that he experiences. It's darned difficult to get a plain old paper subway map to show him and with a crazy household that includes a paper tearing toddler, not exactly helpful.I've been looking around for some kind of laminated map for him for some time--but most of what I've found are large posters or tiny wallet maps--neither which is doable. I'd have settled for a placemat even. But this Transitwise Map is perfect. It folds just like the standard paper maps, but it's laminated, so much harder to damage. I don't have to worry about it getting a little wet, crumpled or chewed on (though we do try to avoid all three!). My 4 year old loves it!It has the complete MTA NYC subway system on one side (NOT just Manhattan--too often what I'd find would only feature Manhattan subway lines) On the other side, which was just added delight for me, it has the complete LIRR railway lines and Metro North lines. As a mom this is awesome. However if I shift my perspective to traveler--this would be a nice little gift for someone who's coming to live in NYC for the first time, or a slightly pricier map for a tourist type visit.Happy reading! This needs to be used in addition to another map which defeats the purpose to me. I would have preferred one map.0 of 0 people found the following review helpful. indispensable mapBy C. AbelThis is the only map of its kind I've been able to find that is both compact, indestructible and maps out all public rail transportation options to and from New York City. The legend could be better and you may need a magnifying glass to read it but those are my only quibbles. A real lifesaver when planning trips.

"Don't leave home without STREETWISE" -- New York Times"STREETWISE is an absolute travel essential" -- Travel Leisure"In a strange city, your sense of direction is only as good as the map in your hands. The best maps to carry are published by STREETWISE." --Chicago Daily HeraldAbout the AuthorSTREETWISE is the first map to be designed with modern graphics and is the originator of the laminated, accordion-fold map format. We've set the standard that every map company has imitated but never duplicated. Our mission is to make you feel comfortable, to make you feel safe in a place where you've never been before and to enable you to experience a familiar place more fully.The company was founded in 1984 by Michael Brown, who had been in international publishing for many years, setting up subsidiaries for textbook publishers. In the 1970s, Brown traveled extensively throughout Africa, India, the Middle East and Southeast Asia. Brown would take a large paper map, cut out the city center, folded it up and slip it into his pocket, thus preventing him from looking like a tourist in areas where discretion is the better part of travel. This was his tool for surviving.After many years on the road, Brown settled back in New York and decided to start his own business, based on the adaptations he had made to maps in his travels. His goal was to give someone the ability to navigate easily in unfamiliar terrain.He started with a new map format: the accordion fold. Such a simple idea, but at the time it was revolutionary. No more struggling to fold an awkward, oversized paper map. This new format would enable the user to blend in like a native, instead of stick out like a tourist. Brown then added lamination to ensure that the map would be a lasting tool.More important than the format was the design of the map itself. It had to be a map that not only succeeded above and beyond any map he had used, but was esthetically appealing as well. The look of it had to be as striking as the functionality. Color was introduced in a way that was never seen before in a map - vivid purple for water, soothing gray for the background of street grids, gold to highlight elements of the map. Clarity,

conciseness and convenience in a very stylish package. Building the business was a 24 hour job. Brown sold the maps during the day, zipping around Manhattan making deliveries on his Harley Davidson. At night he packed the orders and did the design work. More titles were added, each title requiring months of research and design. Today, STREETWISE produces over 130 titles for major destinations, regions and countries throughout the United States, Canada, Mexico, Australia, Europe, the United Kingdom and Asia. We have grown from the back of a motorcycle to selling millions of maps around the world. Yet each title is still painstakingly researched and updated. STREETWISE is one of the only, if not THE only map company that conducts research by walking or driving an area to ensure accuracy. After all, what good is the map if what you hold in your hands doesn't match what you see on the street sign? This lengthy fact checking results in superior accuracy; in effect, we've done the work, now you have the adventure. In the end, it's not about the map, it's about getting out and finding your own authentic experience wherever you go. It's about being in a city or a region and discovering things that you never thought you would find. You can do this if you have confidence and you have confidence if you have a great map. STREETWISE is the great map that you need.
