**Friedhelm Maiworm, Ulrich Teichler : Study Abroad and Early Career: Experiences of Former ERASMUS Students (Higher Education Policy)** before purchasing it in order to gage whether or not it would be worth my time,

and all praised Study Abroad and Early Career: Experiences of Former ERASMUS Students (Higher Education Policy):

Since its inauguration in 1987 the ERASMUS Scheme has enabled more than 200,000 European students to experience life and study in another European country. A temporary period of study abroad can affect the life of the participants beyond the time spent in education. This study provides information on the learning experience and subsequent career of former ERASMUS students over its first five years. It follows two earlier surveys of the same group of students, Learning in Europe: The ERASMUS Experience and Transition to Work: The Experiences of Former ERASMUS Students.

About the Author Ulrich Teichler is the Director, and Friedhelm Maiworm is a staff member of the Centre for Research on Higher Education and Work at the University Of Kassel, Germany. They are regularly involved in research on the ERASMUS programme.
