**William Henry Brewer, William H. Alsup, Yosemite Association : Such a Landscape!: A Narrative of the 1864 California Geological Survey Exploration of Yosemite, Sequoia Kings Canyon from the Diary, F** before purchasing it in order to gage whether or not it would be worth my time, and all praised Such a Landscape!: A Narrative of the 1864 California Geological Survey Exploration of Yosemite, Sequoia Kings Canyon from the Diary, F:

0 of 0 people found the following review helpful. Introductory material from photographer William Alsup gives a good overall narrative of the action as well as an ...By Barbara BilyeuA well-researched compilation of Brewer's documentation of his explorations in the High Sierra, with gripping photographs of the areas he visited. Additional contributions from his contemporaries enhance the experience for the reader. Introductory material from photographer William Alsup gives a good overall narrative of the action as well as an account of the significance of the survey. I only wish Alsup had done the same for the rest of Brewer's journeys as part of the Geological Survey of California!0

If you love the Sierras, if you love history and adventure, you must have this! 3 of 9 people found the following review helpful. Remembered to come looking for it By S. S. Prince I tried to read this late at night in a guest room in Palo Alto (while I was still on Eastern time), at a house where I was also urged to read *Up and down California*, the narrative based on Brewer's own letters, still in print (first edition 1930). I got the latter via interlibrary loan but the memory of Alsup's vistas of rock has brought me to to buy my own copies of both.
