Don't remember it saying that upfront. Might not have bought it. Book in good condition though0 of 0 people found the following review helpful. A Kayaker's Dream come true!By QueenFabulous book with the most amazing photos. Totally enjoyable! Purchased for a trip around Lake Superior (by car). This book gave me a better idea of where I wanted to stop, explore and poke around + local info that is missed by guidebooks. A great arm-chair travel book for those that prefer to camp and paddle the shore of Lake Superior by easy chair :).0 of 0 people found the following review helpful. Great coffee table bookBy JoeWonderful photography and interesting subject matter. I may not have actually read it yet, but I have gone through it several times and enjoyed it every time.
