Jeffrey P. Schaffer : Tahoe Sierra: A Natural History Guide to 112 Hikes in the Northern Sierra before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tahoe Sierra: A Natural History Guide to 112 Hikes in the Northern Sierra:

8 of 8 people found the following review helpful. Comprehensive but lacking in organization By 410 Wilderness Press

hit a high mark with their Sierra North and Sierra South books. This comprehensive guide to the Lake Tahoe Sierra is to be commended for being very comprehensive, containing 112 hikes that touch on all corners of the Tahoe area. The descriptions sparkle much more than the typical dry text in these sort of guides as well. Unfortunately the book could stand to improve its layout and maps, especially the all-important master map pages that clue you in to where hikes are located. Also, the individual trail maps are often nowhere near the text for the trip. Hopefully a future edition will improve upon the book's layout. 0 of 0 people found the following review helpful. Five Stars By Customer Great trail guide; detailed directions and descriptions 0 of 0 people found the following review helpful. A Guide That Goes Deep By Jim Kalember Schaffer's book is the best I've seen, and I have them all. The reason he goes beyond Mike White's work is the geology. He actually tells the reader why the Yuba goes north and Bear Creek goes West at Emigrant Gap. This is just one example. Another bright spot in this book is a great deal of detail on west slope features. It is one of the few works that gives some detail on the American River giant sequoia grove.

Describes over 100 hikes around the Lake Tahoe Basin and in the Sierra Nevada from Carson Pass area north to the Sierra Buttes. Virtually all the trails are covered, visiting such diverse areas as Desolation Wilderness, Malakoff Diggins, Bucks Lake and Lakes Basin. Hikes range from easy dayhikes to strenuous multi-day backpacks. Contains all the topographic maps you'll need for each hike, plus mileage, elevations, difficulty rating, and campsites.
