Helen Truskowski : Take the Kids Paris Disneyland Paris, 2nd (Take the Kids - Cadogan) before purchasing it in order to gage whether or not it would be worth my time, and all praised Take the Kids Paris Disneyland Paris, 2nd (Take the Kids - Cadogan):

5 of 5 people found the following review helpful. Best Family Guide to Paris That I Have seenBy K. A. MancusoThis was really a very good guide book. The maps and pictures were really well done, and the book was comprehensive in its treatment yet very concise and portable. Very nicely done, even had a fairly good section on Disney Paris, although inevitably some things weren't as much detail as I would have liked (seasonal closing of some rides, details about

hotels, etc). I really liked the themed itineraries at the beginning and really thought this was a nicely done book. For families with smaller kids, I recommend the first 2 "Madeline" books as well, and "Linnea in Monet's Garden" as ways to get the kids excited about Paris, and you can always throw in Disney's Hunchback video too. Remember to make reservations for the restaurant in advance, not only will you not get a seat otherwise, but you can avoid the long lines by going directly to the restaurant entrance.

Only very minor shelf wear. But overall this is an excellent copy, its contents are sound and unmarked.
