**Chris Epting : Teddy Roosevelt in California:** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Teddy Roosevelt in California::

1 of 1 people found the following review helpful. Disjointed collection of newspaper clippings! By Rick Interesting but poorly written. Most of this is loooong excerpts from newspapers or other sources. Now, it is cool to have excerpts.....but not as the majority of your book! The excerpts tend to overlap timewise, so the chronology gets disjointed and the narrative flow.....huh ok, there's really no narrative flow. The story itself is very neat and deserves a better, clearer retelling I think. 4 of 5 people found the following review helpful. Great Account of a Key Event in

American HistoryBy CustomerWhat a great read about a pivotal moment in US conservation history! This book describes nothing less than the impetus for the creation of the US National Parks System!The author details the visit of Teddy Roosevelt to the US West soon after he becomes the President and the impact of the time he spend alone in the wilderness with John Muir. This is a great and overlooked episode in American history. It is written is a very accessible style.Recommended for students of US history, the Presidency, and history of the conservation movement in America.1 of 1 people found the following review helpful. Nice jobBy HospitalnurseWell organized and written book about two great men. Really enjoyed the book.

During his whirlwind 1903 tour of the western states, President Theodore Roosevelt paid his first visit to California. In between the appearances and pageantry, he embarked on three days of epic adventure in the wilderness of Yosemite with the famous and influential naturalist John Muir. A lover of the rugged outdoors, Roosevelt was humbled and impressed by the camping trip, which proved to be one of the most important sojourns in presidential history. Through firsthand accounts, speeches and rare photographs, author Chris Epting tells the story of a great and profound journey that had a lasting effect on conservation history and the National Park System.

About the AuthorKnown across Orange County for his newspaper column in the Huntington Beach Independent, Chris Epting is an award-winning and widely published author of pop culture and history books, including such titles as Led Zeppelin Crashed Here: The Locations of America's Rock and Roll Landmarks, Roadside Baseball, James Dean Died Here and many more. Originally from New York, Chris now lives in Huntington Beach, California, with his wife and their two children.
