HromowykWe planned a trout fishing trip through 4 states and these gazetteers were just what we needed to get around! Thanks!!3 of 5 people found the following review helpful. it's a book of mapsBy A CustomerDon't get me wrong; it's a great book of maps, but it's a book of maps, not a guide. There is no information other than location, and you have to scour the maps for that. True of all Gazetteers.1 of 3 people found the following review helpful. More than a book of maps.By MichelleThis is more than a book of maps. It lists state parks, campgrounds, places to canoe, etc. I think it works best

when using another book in conjunction with it.
